

TradePlace ICO presentation

TradePlace Exchange

TradePlace will be much more than just a place where users can swap one blockchain asset for another. The vision is to create a platform that will provide all the features a trader would ever need and then some.

TradePlace Exchange will offer a lot of free and groundbreaking new services to our community. We offer a free analysis service in which a great team of experts helps us find the best trends in the market and provide us with the best analysis of the highest volume pairs. We will have one of the fastest exchanges ever. TradePlace will have a great forum for all of the community, an innovative and powerful token, a vote to add new tokens to the exchange, scam coins and tokens warnings and so much more.
